- Accessibility Testing & Audits

Tools & Collaboration

- Figma
- JIRA
- Confluence
- XLOC

Technical Skills

- HTML & CSS

AI & Emerging Technologies

- Prompt Engineering
- AI Workflow Design

About Me

UX/UI Designer with a background in **Localization QA** for **shipped AAA games**. Specialised in **accessible** and **multilingual digital experiences** — designing products that work for every user, in every language. Native Italian, professional English and Spanish. **W3C Accessibility certified**.

Experience

LQA Tester (Italian) | Universally Speaking

May 2025 - Present, Madrid

- Execute **end-to-end Localization Quality Assurance** for Italian-language releases across **3 shipped AAA titles** in a live **production environment**.
- Evaluate **user-facing text**, **UI flows**, and audio scripts for **linguistic accuracy**, tone consistency, and **cultural appropriateness** — conducting **UX validation** for the Italian-speaking audience at scale.
- Review translated content against **glossary and style guides** to ensure product standards across all in-game copy.
- Identify, document, and triage **LQA and functional bugs** in **JIRA**, collaborating with development teams through full **regression testing** cycles to ensure definitive bug closure.

Key Projects:

Red Dead Redemption ([Rockstar Games](#)) · **Kiln** ([Double Fine Productions](#)) · **Dead Take** ([Surgent Studio](#))

UX/UI Designer | Independent

Jan. 2024 - May 2025, Remote

- Conducted **user interviews** and **usability testing** sessions to inform and validate design decisions across projects.
- Designed **end-to-end UX flows** from discovery to **high-fidelity prototype** in **Figma**, including **accessibility audits** and responsive mobile layouts.
- Developed **information architecture** and optimised **user flows** for improved usability and task completion.
- Applied **WCAG 2.1** guidelines to ensure **accessible** and **inclusive design** across all deliverables.

Key Projects:

Cines Callao: Designed trailer browsing flow to reduce navigation friction

Education

IT & Telecommunications Diploma

2019, Montesilvano (PE), Italy
